

BRIEF SUMMARY

I am a passionate and aspiring developer with hands-on experience in frontend technologies like React.js, HTML, and CSS. I possess a foundational understanding of Data Structures and Algorithms, enabling effective problem-solving. I am also interested in the field of Artificial Intelligence and continuously seek opportunities to explore and grow in this domain.

KEY EXPERTISE

ReactJs Html css Javascript Artificial Intelligence Front-End Web Development

EDUCATION

MIT Academy of Engineering, Pune

2022 - 2026

B.Tech. - Computer Engineering | CGPA: 7.25 / 10

Vidya Vikas School, Malkapur

2022

12th | HSC | Percentage: 86 / 100

School Of Scholars, Malkapur

2020

10th | CBSE | Percentage: 73 / 100

INTERNSHIPS

Anantam Aerials And Robotics | IT Product & Services

02 Jun, 2025 - 02 Aug, 2025

Drone Assembly and Calibration Intern

Key Skills:

Technical Documentation Flight Controller Configuration Sensor Calibration Mission Planner Operation and Simulation

Intern – Drone Assembly, Calibration, and Testing

Worked on end-to-end drone development including hardware assembly, sensor calibration (compass, gyro, accelerometer), and integration with flight controllers (Pixhawk, SpeedyBee). Performed test simulations using Mission Planner, tuned PID parameters for stable flight, and documented processes. Assisted in interfacing drones with computers via telemetry for data exchange and control.

CISCO | IT / Computers - Software

01 May, 2024 - 01 Jul, 2024

Networking intern

Key Skills: Cisco Packet Tracer

AICT Cisco Virtual Internship

Internship Program in Cybersecurity from May to July 2024 with covering three certifications:

-Introduction to Cybersecurity Cybersecurity Essentials.

Introduction to Packet Tracer

Additionally, I completed a project focused on Cisco Packet Tracer, which was a great hands-on experience in understanding network security

PROJECTS

ClubRanker

01 Aug, 2023 - 01 Jul, 2024

Mentor: Mrs.Padma Nimbore | Team Size: 4

Key Skills: Python ,HTML CSS,PHP ,Flask

ClubRanker is a web-based platform designed to help new college students choose clubs by ranking them based on various factors like activity, popularity, and member feedback. This provides incoming students with a clearer understanding of which clubs align best with their interests.

Technologies Used:

HTML & CSS: Structured and styled the frontend to create an accessible, user-friendly interface.

Flask & PHP: Flask handled the main application routing, while PHP was used for backend scripting and data management.

Python: Assisted with backend processing and ranking algorithms.

Key Features:

Comprehensive Club Rankings,User-Friendly Interface,Backend Data Handling

Freight Transport System Using Blockchain

Team Size: 4

Key Skills:

Blockchain Technology

Smart Contract Development

IoT Integration for Real-Time Monitoring

Supply Chain Process Automation

Secure and Transparent Data Sharing

Decentralized Application Development

Web-Based Freight Tracking System

Cybersecurity for Data Integrity

System Design and Requirement Analysis

Prototype Development and Testing

Developed a blockchain-based freight transport system to enhance transparency, automate workflows using smart contracts, and enable secure, real-time shipment monitoring. Integrated IoT, improved logistics efficiency, and ensured data integrity.

POSITIONS OF RESPONSIBILITY

Social Media Organizer – 10x Club

Actively contributing as an organizing member of the 10x Club, with a key role in managing and growing the club's digital presence. Responsibilities include curating and scheduling content, designing engaging posts, coordinating with team members for event promotions, and enhancing overall community engagement through strategic social media initiatives. Focused on creating a strong online identity for the club and driving participation across platforms.

PERSONAL INTERESTS / HOBBIES

- Passionate about music; enjoy singing and playing various musical instruments.
